## MODELS AVAILABLE IN STOCK AND CUSTOMIZABLE

Preforms are the semi-finished products from which bottles and containers for various food and non-food uses are derived, through the blowing moulding phase.

ACACIA PLASTICS has a complete range of PET preforms with a wide variety of weights, colors and sizes for different applications.

Using state-of-the-art machinery, we create preforms that are unmatched in finish and performance.

Our team is available for the design and production of preforms customized to your requirements.

## S E R V I C E

# PRODUCT DEVELOPMENT

## PET bottle product development

ACACIA PLASTICS has been leading in the product development of PET bottles for years. To produce custom PET packaging, our specialists work closely with packaging designers and all parties involved in the application chain. You are thus guaranteed a PET bottle that perfectly meets its goal. In the desired size, colour and thickness.

## PET packaging for food and non-food

We are involved in your thought process, with a focus on solutions, and can provide expert advice on sustainability aspects and design. Our product developers have extensive experience with PET packaging for food such as mineral water, soft drinks, fruit juices, spirits, syrup, sauces and dressings. We also have broad expertise in designing PET packaging for non-food purposes such as pharmaceuticals, household products, detergents etc.

## GUARANTEE

### PET packaging with quality guarantee

Thanks to our high-quality production lines with cutting-edge machinery and meticulous product checks, we make sure every batch meets all the requirements, from the first down to the very last PET bottle. That way, you know for sure that our bottles are leak-proof, dimensionally stable and are of high quality, so that your filling process can proceed without fault.

## SERVICE

## STORAGE AND LOGISTICS

### Flexible stock management of your PET packaging

Good logistics start with delivery reliability. We have large storage areas; here we keep over 100 models of standard PET packaging in stock, from which we can deliver directly. Our extensive storage capacity also means that, with clear agreements, we can take over your stock management and in doing so, we can alertly meet your production demands with just-in-time delivery.

### Custom transport for your PET packaging

We can also seamlessly meet your wishes in the area of transport. You can pick up the PET

### Supply security

ACACIA PLASTICS has a carefully developed Business Continuity Plan to prevent production stoppages. As a result, we can shift quickly if necessary to prevent any long-term stoppages of the production lines. Furthermore, we always have back-up compressors ready to continue to meet the demand for our blow moulding machines. Our continuity plan ensures a good and reliable course of the entire production process.

packaging with your own transport or have us cover all of the transport ourselves. ACACIA PLASTICS would be happy to discuss your wishes and offer a custom solution.

## REQUEST SAMPLES

### Request a sample for your PET packaging

No matter how you would like your PET bottles produced, ACACIA PLASTICS is happy to be involved in the thought process. Our experts have years of experience with PET bottle development. From supervision, the initial idea up to the delivery of the physical end product. All you have to do is share your ideas and requirements with us, and we will get straight to work for you.
